

# THE DOLDER GRAND

## INSTRUCTIONS

Electric stove with bottom and top heat	preheated to 180°C	25 Min.
Electric stove with convection	preheated to 170°C	25 Min.
Gas stove	preheated to level 5-6	25 Min.

Remove the foil from the aluminum container with the goose and baked apples before sliding it into the oven - if the container does not fit into the oven, transfer it to an appropriate baking pan.

Put the red cabbage in a saucepan and heat. If necessary, add a little water.

Bring water to a simmer in a deep pot, add salt and heat the dumplings with the lid closed for about 10 minutes, do not boil.

Slowly bring the sauce to the boil in a saucepan.

Heat the crumbs with a little butter for approximately 5 minutes.

Heat the glazed chestnuts for about 5 minutes in a pot or a saucepan.

With exception of the aluminum container for the goose, the take-away containers are made from sugar cane fibers. These can be used in the microwave up to 800W for 10 minutes and are biodegradable.

We wish you bon appetite and happy holiday.

# THE DOLDER GRAND

## ROAST GOOSE

Ingredients: goose, salt, pepper, orange, onion, apple, mugwort, butter
