Exceptionally pure ingredients in a special composition for a softer, more beautiful complexion. This facial treatment provides the skin with intensive moisture, smooths fine lines and delays skin ageing. The use of an ultrasound cavitation device, for deep cleansing and removing dead skin cells, is at the heart of this highly effective treatment concept. This is complemented by the Oxyjet and vitamin device, to refresh your skin with a dose of pure oxygen mixed with an exclusive serum. VITALITY

Awaken new energy and get active. These offers put fitness and vitality centre stage and give you strength and youthful vigour for the entire day.

AGE-DEFYING VITALITY FACIAL BY MARGY’S MONTE CARLO

This facial treatment method reduces fine lines from the very first session, ensuring ultra-smooth, radiant skin. Highly active, individually tailored face masks with either collagen-based Botolift or collagen from stem cells will restore your skin’s elasticity and make it appear firmer, so that it radiates from within.

This groundbreaking, effective treatment uses a powerful radio frequency device to promote deepest-layer collagen production, revitalising your skin from the ground up. The combination of ultrasound waves and radio frequency technology stimulates micro-circulation to instantly make your skin look younger and healthier. It is the ultimate treatment to counteract skin aging effectively.
