Classes are subject to change.

All classes can only be booked at the spa reception.

\* Before you attend a course for the first time, we recommend you take a 30-minutes introduction to Pilates.

\*\* Kindly check with the Spa Reception whether the course will take place indoors or outdoors.

\*\*\*Please wear a T-shirt with sleeves (no tank top). Thank you.

In an **Aerial Yoga** class traditional yoga postures will be newly experienced with the help of a hammock, and the playful use of gravity. The main contents are about allowing to let go, and to gain trust, as well as increasing strength and flexibility.

**Aqua Gym** is a water training routine that relieves strain on the joints, toning the muscles and strengthening the cardiovascular system.

**Ballet** is an artistic dance with carefully planned movements. The emphasis lies on developing good posture, improving balance, developing coordination, building strength, and increasing flexibility.

**Boxing Workout** is an explosive mix of different martial arts at a punching bag with electrifying music. This complete body training improves punch, body condition, concentration and responsiveness.

**Body Combat** is a high-intensity, martial arts-inspired workout that combines cardio, strength, and agility training through punches, kicks, and explosive movements for total-body fitness and endurance.

**Body Pump** is an intensive and varied muscular-endurance program with barbells. To the accompaniment of music, individual weights and clear and simple movements are used to train all the main muscle groups.

**Bootylicious** focuses on strengthening the glutes, legs and abs.

**Functional Training** consists of practical exercises that are relevant to everyday life. Behind the training program are complex movement sequences such as push-ups, plank variations and lunges that use several joints and muscle groups at the same time.

**Healthy Back** includes exercises that focus on mobilising and strengthening the lower back muscles. Poor posture will be corrected, and tension released.

**Mobility & Stretching** includes dynamic stretching exercises and focuses on gentle, flowing movements that loosen your muscles and increase flexibility – perfect for all fitness levels.

**Morning Boost** is a high-energy workout combining cardio, strength, and flexibility to energize your body and mind for the day ahead.

**NIA** is a flowing form of movement that combines dance elements with Asian martial arts and relaxation methods. The intention is to enjoy the movements without any pressure to perform.

**Pilates Allegro** is a challenging and varied workout. The aim is to work through the principles of a Pilates workout with optional additional weight (Reformer). This workout will promote bodily self-control and improve physical awareness.

**Power Workout** is a cardio-and strength workout. Aerobic movements are combined with strength and stabilisation exercises.

**Pranayama** means directing the breath. Very conscious, long and calm breathing helps to permanently establish and reduce stress.

**TRX** is a functional full body workout focusing on the upper body at any time. Class formats are subject to vary.

### **Walking/ Running**

Cardio training in the forest helps to increase physical and mental well-being. During a walking/running class the essential techniques will be taught to help avoid injury and overtraining.

**Yoga** is a holistic training routine for body, mind, and soul. The exercises encourage relaxation, strengthen, and stretch the muscles, and increase physical awareness.

**Yoga & Meditation** combines the following elements: yoga postures that build strengths, flexibility, and concentration, cleansing and calming breathing techniques, a deep relaxation, a meditation, and a period of silence.
